# WHO IS MISTER WOLF

## MISTER WOLF

Mister Wolf produces high-quality, thoughtfully designed timepieces for men and women that are designed and assembled in Sydney.

Truly unisex in their design, our watches are pared back with personality. Designed by industrial designer Tom Fereday and conceived and assembled by watchmaker and design retailer Leighton Clarke, Mister Wolf is a global brand with indelible ties to Sydney.

As well as offering a succinct, curated range of stylish watch designs for men and women, we offer something a bit different - the option to custom-design your Mister Wolf watch online.

Australians love to travel and Mister Wolf is global in outlook. This is reflected in our watches' components. We travelled the world and collaborated with manufacturers internationally to assemble the watch that would adhere to our impeccable standards.

Mister Wolf watches feature a reliable Miyota movement from Japan, a face conceived in New York, casings manufactured in China, a leather band by a French producer, and of course overall design and assembly in Sydney, Australia.

A truly global product with enduring, universal appeal.

# TOM FEREDAY

## THE DESIGNER

Industrial designer Tom Fereday develops products based on the principle of honest design. He is motivated by a belief in the need to design from the inside out. Key to his process is consideration and celebration of materials and manufacturing processes.

Tom pursues intelligent and thoughtful design outcomes and is interested in connecting people with objects through the use of natural materials and tactile finishes. He strives to create enduring designs which are meaningful to people and their environment.

A photograph of a sunset over the ocean. The sun is low on the horizon, creating a bright orange and yellow glow. In the foreground, the silhouette of a person is visible, sitting on a boat and looking out at the sea. The text "WHAT'S THE TIME MISTER WOLF" is overlaid in large, white, bold, sans-serif capital letters across the center of the image.
